Dear Mr. Turenne

I would like to thank you and all the staff at Aikens Lake Wilderness Lodge for your generous hospitality. Everything at the lodge was perfect.

The tour helped our delegates appreciate the Pimachiowin Aki World Heritage Project and understand just why it is being considered as a UNESCO World Heritage Site. The natural beauty of the area served as a reminder of how special our boreal forest is and why we must take steps today to preserve it for future generations.

Everyone in our group had a wonderful time and we're left with a lasting impression of the importance of Manitoba's boreal forest. I know I will never forget the best catch of my life while fishing on Aikens Lake!

After the trip the delegates all spoke very highly of the service at Aikens Lake Wilderness Lodge. You did an excellent job showcasing the best of Manitoba's tourism industry.

Sincerely,

Greg Selinger
